PROFESSIONAL SUMMARY

Data Scientist with a passion for education, technology, and learning access. Experience building data driven learning assessment systems, recommendation algorithms, scoring pipelines, and training IRT-based models. Skilled in developing NLP and RAG workflows, with hands on experience deploying serverless backend architectures on AWS.

PROFESSIONAL EXPERIENCE

Erudite Instruction - Founder/Full Stack Developer

New York, NY

April 2025 – Present

- Designed and led development of an LMS with core assessment and learning features, including scoring logic, IRT-based ability estimation, analytics workflows, and UI/UX informed by deep knowledge of SAT item design and evaluation.
- Managed project milestones for a three-person team, coordinated demos, onboarded early adopters, and served as the primary channel for feedback and issue resolution; Led pilot adoption through center-specific rollout plan.
- Met user requests by engineering real-time analytics pipelines (AWS) and interactive dashboards to surface mastery trends, item-level statistics, and generate personalized question recommendations.

Amalgamated Life - Implementation Analyst

White Plains, NY

June 2024 – March 2025

- Improved accuracy and throughput of plan participation updates by automating data processing workflows, ensuring faster and more reliable medical and pension plan enrollment changes for clients.
- Reduced enrollment rate calculation time by 80% by automating cost modeling (monthly/yearly premiums) with Python and Excel, allowing faster delivery of pricing insights to client companies.
- Streamlined healthcare document processing and eliminated redundant steps, improving turnaround time and strengthening compliance through automated Power Automate pipelines.

TEACHING EXPERIENCE

LearnWell Education – Teaching & Ops Assistant

White Plains, NY

January 2024 – June 2024

- Coordinated communication between families, schools, teachers, and team of 10+ healthcare providers to support and secure compliance approvals under HIPAA and DOE regulations for 125+ students experiencing mental health crises.
- Led classrooms of 20+ students and collaborated with clinicians to align curriculum with treatment plans, ensuring academic continuity during recovery.

C2 Education | WhizKidz | 1:1 Tutoring – SAT/AP Tutor

Westchester, NY

February 2022 - Present

- Successfully oversaw the test preparation of students seeking SAT scores in 99th percentile by delivering targeted SAT preparation, developed individualized learning plans tailored to each student's needs.
- Built strong partnerships with families seeking affordable, high-quality test preparation by producing clear instructional infographics and translating insights from the SAT Technical Manual into an in-house prep guide used across tutoring centers.

RELEVANT EXPERIENCE & PROJECTS

Problem Recommender System

- Compiled 30,000+ student SAT exam reports from the C2 Education archive, cleaned and prepared data, conducted an exploratory data analysis to identify trends and patterns between problem types and student performance.
- Developed a content-based recommendation algorithm in TensorFlow to match students with SAT problems tailored to their diagnostic exam results.

SAT/ACT Problem Generation

- Engineered a prompt-based pipeline to synthesize 2,000+ SAT/ACT-style questions by feeding categorized examples aligned to specific knowledge testing points; achieved a 63% higher problem yield compared to non-prompted generation.
- Fine-tuned LLaMA 3 using LoRA models on validated question data to enhance future problem generation consistency.

TECHNICAL SKILLS

Programming & Data: Python, R, SQL, MATLAB, C++

Machine Learning & AI: TensorFlow, PyTorch, Scikit-learn, NLP, LangChain, RAG

Data Visualization & Analysis: Tableau, Excel, Pandas, NumPy, Jupyter, Statistical Modeling, Predictive Analytics,

Data Engineering & Cloud: AWS (Lambda, RDS, API Gateway), Google Cloud Platform, PostgreSQL, Docker, GitHub, MySQL

EDUCATION AND HONORS

Binghamton University, State University of New York, Harpur College

Bachelor of Science in Physics, Concentration Applied Physics

Honors: Magna Cum Laude

Binghamton, NY

May 2023
